## PROJECT EXPERIENCE

**CLIENT NAME : TATA Communication Ltd. (TCL).****PROJECTS & PROGRAMS**

- ✓ **NGP portal (Next Gen Portal)** - A portal for TCL clients to place orders for PSTN, Mobile, BB and Bundle products.
- ✓ **GPG portal (Global Partner Group)** - A new version of the older NGP portal, the GPG portal has Responsive Design.
- ✓ **VAS portal (Voice Access Services)** - A portal to order voice products like PSTN.
- ✓ **RMA portal (Relationship Management Access)** - A portal for the internal TCL agents (Back Office Users).

**ROLES & RESPONSIBILITIES**

- I have prepared new wireframes, Mock-ups & prototypes using Balsamiq, Adobe PS and Figma.
- I have also designed the responsive webpages using Html/CSS and Bootstrap framework along with J-query U plugins and widgets by following the RWD principles.
- I have also performed the usability Testing and Device Emulator Testing (Screenfly) for the projects I worked.

**CLIENT NAME : British Telecom (BT).****PROJECTS & PROGRAMS**

- ✓ **BOS (Broadband Ordering System)** - A portal to order Broadband products.
- ✓ **ICON (Indirect Channel Online)** - A portal for the admin users and Back Office users of the British Telecom (BT) to perform user management, invoicing, order processing etc.
- ✓ **STE (Strategic Training Environment)** - A training portal for new BT internal Back-office agents (Trainees).
- ✓ **PG portal (Partner Gateway Portal)** - A portal for the external partner agents of British Telecom (BT) to order PSTN Phone lines, Call Plans, Broadband, Bundle, Mobile products. This is also a Gateway to other BT portals like Training, Marketing, News etc.

**ROLES & RESPONSIBILITIES**

- I have worked for the PSD to HTML/CSS conversion of the webpages along with designing new prototypes using Adobe XD and Figma.
- I have worked for the Rebranding of the old portal and to implement the new BT Theme. Also I had the responsibility of Usability & Device Testing and review test scenarios as a QA analyst along with the Business Team.
