

2. User Persona

Name -

James Miller.

Occupation -

Works as a Senior software Developer in the IT department of an MNC.

Demographics -

30 years old;
Lives in Seattle, Washington;
Married, no children; takes care of his parents as well.
Has a upper middle-income level.

Goals and Needs -

James is working as a senior developer and a Team Lead in an MNC. He is often faced with new technologies and challenges in his day to day work. He has a large workstack and needs to use many Tools and Software to accomplish his day to day work. He is a busy person who needs to invest extra hours to complete his work and drive his team. He is a very analytical and career driven person.

Pain Points -

James has to learn and work on new tools and software frequently. He need to be able to identify, search and order new software best suited for his project at hand. He uses the **software repository** provided by the company portal for ordering the required software as per the company policy (which are later available in the software centre in his local machine for download). He needs to have a **search feature** in the software repository that will allow him to quickly search and identify the software he needs and order them.

Personality -

Analytical,
Introvert,
work and career driven,
caring for family and friends, very cordial with his team members colleagues.

3. User Stories

A. User Story :

A.1 As an employee of the UNICOM software solution, I use their Software Procurement System for ordering any new software required for my day to day work.
I should be able to easily apply the advanced search features of the portal so that I can easily search and place orders for the software required for my project work.

B. Acceptance Criteria :

- B.1.** I should be able to search the required software by the software name. while searching by typing the software name, the search dropdown should auto populate the suggestions in the search drop down.
- B.2.** I should be able to filter the available software by the software category - IT/Finance/HR etc.
- B.3.** I should be able to view the available software or my search results in a List view or a Grid View.
- B.4.** I should be able to sort the available software or my search results based on the criteria like - Software name, Publisher name, Top Rated Software, Most Recent Software etc.
- B.5.** I should be able to apply refined search filter, which should be an optional search feature for the user.
- B.6.** In the Refined Search section, I should be able to provide the search inputs like Software Name, Publisher Name, Software Ratings, License Type, Operating system compatible with and software version.
- B.7.** I should be presented with the Search Results from where I can easily order the searched software.

Welcome James to the Software Procurement System (SPS) !

Depending upon the software that you require and our licencing agreement with the manufacturer there are different ways to obtain the software. Please check the Software Centre first. In case the software is available in the software centre it can be directly downloaded and installed in the webtop. If the required software is not available in the Software Centre, then please place an order using the **PLACE AN ORDER** option from the below menu list. Once the order is placed, it can be tracked from the **TRACK ORDERS** option.

Also you will find the recently released licenced software and their updates. below. If a software is not purchased and hence licenced, its categorised as a non-standard software. While placing an order for a non-standard software please provide a proper justification as the software needs to be procured.

PLACE NEW ORDER

Place an order for software required for the IT, Finance or HR services.

ORDER BASKET

All the selected software will be available in your basket.

ORDERING HISTORY

You can view the order history from here.

TRACK ORDERS

You can track the progress and approval levels of your current orders.

TOP RATED

Check all the Top rated software from this option.

RECENT RELEASES

Please check out the recently procured and licenced software.

LATEST UPDATES

Please find the latest updates and plugins from here.

NON-STD SOFTWARES

To procure any Non-Standard software please visit this link.
