PROJECT EXPERIENCE
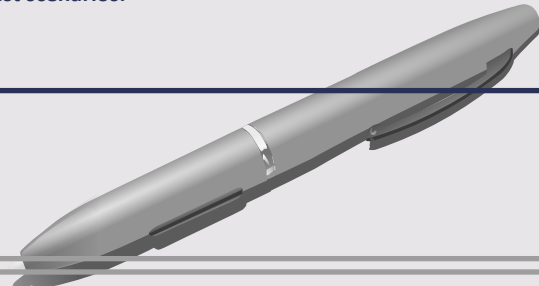

- **CLIENT NAME : TATA Communication Ltd. (TCL).**

- **PROJECTS & PROGRAMS**

  - **BOS (Broadband Ordering System) -** A portal to order Broadband products for the BT partner agents, Dealers, Distributors and Resellers.

  - **ICON (Indirect Channel Online) -** A portal for the admin users and Back Office users of the British Telecom (BT) to perform user management, invoicing, order processing etc.

  - **STE (Strategic Training Environment) -** A training portal for new BT internal Back-office agents (Trainees).

  - **PG Application (Partner Gateway Application) -** An web application for the external partner agents of British Telecom (BT) to order PSTN Phone lines, Call Plans, Broadband, Bundle, Mobile products. This is also a Gateway to other BT applications like Training, Marketing, News etc.

- **ROLES & RESPONSIBILITIES**

  - I have conducted user interviews and created user stories. After finalizing initial requirement, I have worked on designing new wireframes, low & high mockups and prototypes using Balsamiq mockups and Figma.

  - I have worked for creating the interactive prototypes using Boostrap and html/CSS. I have worked for the Rebranding of the old portal and to implement the new BT Theme. I have worked for the PSD to HTML/CSS conversion of the webpages.

  - I have also performed the usability Testing and Device Emulator Testing (Screenfly). Also, I had the responsibility of Usability & Device Testing and review test scenarios.

  Creating Low & High Fidelity
  Prototypes,
  Wireframing,
  HTML, CSS,
  Bootstrap,
  Media Queries & Flexbox,
  Responsive Web Design (RWD),
  Adobe PS for UX Design.

PROJECT EXPERIENCE

CLIENT NAME : TATA Communication Ltd. (TCL).

PROJECTS & PROGRAMS

- **NGP portal (Next Gen Portal) -** A portal for TCL clients to place orders for PSTN, Mobile, BB and Bundle products.

- **GPG portal (Global Partner Group) -** A new version of the older NGP portal, the GPG portal has Responsive Design.

- **VAS portal (Voice Access Services) -** A portal to order voice products like PSTN.

- **RMA portal (Relationship Management Access) -** A portal for the internal TCL agents (Back Office Users).

ROLES & RESPONSIBILITIES

- I have prepared low and high fidelity wireframes, Mock-ups & prototypes using Figma.

- I have also designed interactive and clickable prototypes and responsive webpages using Html/CSS and Bootstrap framework by following the RWD principles.

  Along with the above mentioned responsibilities of a UX designer, I also played the roles of a QA Analyst and IT Business Analyst in my early days before moving into the domain of UX design.

CAREER OBJECTIVE

- **Career Object -** To continue on my journey as a UX Designer and to grow and learn more about the nuances of Web and App Designs to take up the role of a Product Designer in future.
